Summary

I am a versatile software engineer with a passion for dynamic environments that foster continuous learning and skill development. I excel in establishing best practices, mentoring team members, and resolving challenges to drive optimal outcomes.

Experience

FORM

3 years 4 months

Senior Software Engineer

April 2025 - Present (8 months)

Backend Software Engineer

August 2022 - April 2025 (2 years 9 months)

Des Moines, Iowa, United States

The FORM field execution solutions serve as a digital assistant for frontline teams by guiding daily tasks, streamlining data collection, enabling communications, and providing leaders with real-time intelligence that drives faster actions and better decisions.

Heartfelt Tech LLC

Owner

June 2017 - July 2023 (6 years 2 months)

Heartfelt Tech provides a full gamut of web services including software development, hosting, and project management.

Kion

GCP Software Engineer

September 2020 - July 2022 (1 year 11 months)

Fulton, Maryland, United States

As Kion's GCP Software Engineer, I spearheaded the company's efforts to support Google Cloud Platform in its cloud governance solution.

- Architecting microservices

- Building internal SDKs and libraries
- Providing level 3 support for customers using Google Cloud in Kion
- Full stack feature development (GO + Angular)
- Internal education and documentation

Stellar Software LLC

Senior Backend Engineer

March 2020 - July 2020 (5 months)

- Designed cloud infrastructure with the other backend engineer
- Authored containerized microservices and API gateway in TS/Node

Trinity

11 months

Integration Engineer

January 2020 - March 2020 (3 months)

Rochester, Minnesota Area

- Maintain internal DevOps standards and practices and provide user support
- React application development for client portal and internal tooling

Data Integration Engineer

May 2019 - January 2020 (9 months)

Byron, MN

- Custom serverless data pipelines and integrations on Google Cloud Platform
- Leverage Google BigQuery to ensure reliable conversion attribution and segmentation

Colony Brands, Inc.

Data Integration Analyst Intern

May 2018 - August 2018 (4 months)

Monroe, Wisconsin

- Led development on a serverless data dictionary web application for the data warehouse
- Provided expansive business value with data provenance and metadata for all users
- Assisted in company-wide efforts to lift-and-shift COBOL mainframe routines to AWS

Luther College

Academic Administrative Assistant

January 2018 - June 2018 (6 months)

Waterloo, Iowa Area

Busco Enterprises Inc.

Summer Intern

May 2017 - August 2017 (4 months)

Greater Minneapolis-St. Paul Area

Worked with the regular staff in a multitude of ways including: competitor research, stock

management, filing, & web-store management.

Luther College

Staff Photographer

August 2016 - December 2016 (5 months)

Decorah, IA

Kwik Trip, Inc.

Retail Co-Worker

May 2015 - May 2016 (1 year 1 month)

Columbus, Wisconsin

Kept the store clean, stocked, and well-maintained. Also operated the cash register and

assisted guests in the store.

Education

Luther College

Data Science, Computer Science
